Keep Your Workforce Connected and Informed Wherever They Go

Unleash the communication power of our HCM platform with TeamText - Broadcast Messaging. Keep your employees connected and informed no matter where they are, by sending both email and text alerts straight to their mobile devices - the device they use most.

Stay ahead of the game with emergency alerts, schedule reminders, and streamline your hiring process with real-time applicant outreach. TeamText makes it easy to deliver critical messages to your staff, ensuring they stay up-to-date and in the loop.

With TeamText experience hassle-free, efficient communication with your team!

Key Features of TeamText

With TeamText - Broadcast Messaging, managers can:

- Schedule messages for delivery at specific times
- Easy opt-in and opt-out options for employees and applicants
- Send messages from your phone or tablet
- Reach employees who don't have an email address or check their email regularly
- Streamline the hiring process with applicant outreach
- Send out emergency alerts and reminders to keep employees informed
