

Our User Experience

A unified, adaptable, and modern platform designed to make lives easier for businesses of all sizes and industries.

Key Features

Our Human Capital Management (HCM) Platform is built to deliver an unmatched user experience for all levels of your organization.

Unified Design

Our unified platform is built with inclusivity and security in mind, allowing all members of your organization to streamline back-office tasks from pre-hire to retirement, eliminating paper processes while maintaining data security.

Adaptable Design

Profile driven technology configured to match your organization's requirements, and easily adaptable to grow and scale at the same pace as your business, so your needs never outweigh our capabilities.

Modern Design

Our responsive interface and mobile application ensure that the demands and needs of today's modern workforce are met, providing unmatched support so that your organization never feels behind the times.

A User Experience Covering Your Entire Organization

Our growth-driven design and experience extend to all levels of your organization, including:

Employees

- Convenient access to employee information quickly and easily, and from any device. Track and manage hiring stages and hiring teams
- Easy look and feel through guided processes that help streamline onboarding, benefit enrollment, and time-off planning.
- Tools that support employee life, such as enhanced financial management with pay prediction, history, and timesheet visibility.

Managers

- Technology that works for managers, such as dashboards tailored to their needs and communication tools for messaging staff.
- Swift action capabilities for tasks such as helping with workforce planning and team accountability.
- Data-driven decisions through strategic reports that help adhere to company policies and reach departmental goals.

Admins & Above

- Improved employee engagement, Through tools that help maintain a productive and engaged workforce from job seeker to retiree.
- Ability to work smarter, not harder, by tackling HR and Payroll tasks in less time thanks to features that support your work.
- Reliable support that allows you to enjoy a powerful HCM system without the stress of having to know it all.
